Created with Preceden.com, the easiest way to make a timeline

Bachelor's degree

Universidade Federal da Bahia
Campus Anísio Teixeira

Bachelor in Biotechnology
March 2009 - January 2015

Federal University of Bahia, Brazil

Dissertation title: "Thermochemical and surface analysis of lodgepole pine bark biodegradation by Pleurotus ostreatus under submerged fermentation"

Advisor: Dr. Patricia Leal

Exchange Student
January 2013 - December 2013

Brazil-Canada Science Without Borders Program
University of Toronto, Canada

Co-op Student
June 2013 - August 2013

University of Toronto
Faculty of Forestry
Centre for Biocomposites & Biomaterials Processing

Advisor: Dr. Ning Yan

Master's degree

Universidade Federal da Bahia
Campus Anísio Teixeira

Master in Biosciences
March 2015 - July 2017

Federal University of Bahia, Brazil

Thesis title: "Screening of lignocellulolytic genes through metagenomic analysis of the microbial genomes of the rumen: a biorefinery approach"

Advisor: Dr. Andrea Ferreira
Co-Advisor: Dr. Leandro Freitas

Technician's diploma

Centennial College
Morningside Campus

Created with Preceden.com, the easiest way to make a timeline

Technician in Biotechnology
August 2017 - August 2018

Centennial College, Toronto

Visiting Student
May 2018 - August 2018

University of Guelph
Centre for Genetic Improvement of Livestock

Advisor: Dr. Flávio Schenkel

Co-op student
May 2018 - August 2018

Semex Alliance, Guelph
Genomics Research & Innovations

Advisor: Dr. Mehdi Sargolzaei

Ph.D. degree

University of Guelph
Department of Animal Biosciences

Ph.D. in Animal Biosciences
September 2018 - August 2021

University of Guelph
Centre for Genetic Improvement of Livestock

Project: "Understanding the impact of cutting-edge genomic technologies and novel phenotypes on breeding strategies for optimum sustainable genetic progress in Canadian dairy cattle"

Advisor: Dr. Flávio Schenkel
Co-Advisor: Dr. Christine Baes

International Doctoral Tuition Scholarship
September 2018 - 25 August 2021
